

KHUSHI PAL

Aspiring Web Developer | HTML · CSS · JavaScript | Power BI & Data Visualization

7021762979 | palkhushi7898@gmail.com | Mumbai, Maharashtra

[LinkedIn](#) | [Portfolio Website](#) | [Salon Website \(Live Project\)](#)

PROFILE

Information Technology student with hands-on experience building and deploying websites using HTML, CSS, JavaScript, and Wix, alongside strong foundations in Power BI, SQL, and Python. Comfortable across the front-end web development lifecycle — from wireframing and responsive layout to publishing live sites — with an eye for clean UI and user-friendly design. Currently seeking a Web Development or IT internship to apply these skills in a real-world team environment.

TECHNICAL SKILLS

Web Development: HTML5 · CSS3 · JavaScript · Responsive Design · Wix · Website Deployment · GitHub Pages

Data & BI Tools: Power BI · SQL · Python · Advanced Excel · DAX & Measures

Programming: Java · Python · Git & GitHub

Core Skills: Dashboard Design · Data Visualization · UI/UX Basics · Reporting · KPI Tracking

Soft Skills: Problem Solving · Attention to Detail · Quick Learner · Teamwork · Communication

PROJECTS

Personal Data Analyst Portfolio Website *Web Development · HTML/CSS · GitHub Pages*

Live site: <https://palkhushi7898-lab.github.io/data-analyst-portfolio/>

- Designed and built a personal portfolio website from scratch using HTML and CSS to showcase Power BI dashboards, technical skills, and project case studies.
- Structured the site with clear navigation, project cards, and embedded dashboard previews to give recruiters a fast, organized view of my work.
- Deployed and hosted the site using GitHub Pages, managing version control and updates through GitHub.
- Optimized layout for readability and responsiveness across desktop and mobile screen sizes.

Salon Web Development *Wix · UI/UX Design*

Live site: <https://palkhushi7898.wixsite.com/salon>

- Designed and published a fully functional business website for a salon, including a homepage, services & pricing menu, photo gallery, and contact/booking section.
- Built a cohesive visual identity (color palette, typography, imagery) to reflect the salon's brand and improve customer engagement.
- Structured content and page flow to guide visitors toward booking, following basic on-page SEO and mobile-responsive design practices.

Blinkit Sales Analytics Dashboard *Power BI · Data Visualization*

- Designed an end-to-end Power BI dashboard analyzing \$1.20M in total sales across 8,523 items for India's leading quick-commerce platform.
- Visualized key KPIs — Total Sales, Average Rating (3.9), Item Count, and Average Sales (\$141) using interactive card visuals.
- Developed an outlet performance table with conditional formatting covering Supermarket Type1/2/3 and Grocery Stores, tracking sales, item count, and visibility.
- Incorporated an outlet establishment trend line (2010-2022) and size/location distribution charts using donut and stacked bar visuals.

Spotify Listening Behavior Dashboard *Power BI · Data Visualization*

- Built a multi-section dashboard analyzing 12,724 tracks, 3,835 artists, and 7,381 albums from personal Spotify streaming data (2015-2024).

- Added platform slicers (Android, iOS, Mac, Web Player, Windows) and behavior filters (Shuffled, Skipped) for dynamic, user-level analysis.
- Developed Year-over-Year comparison metrics: Tracks -10.42%, Artists -24.43%, Albums -20.19% vs prior year.
- Visualized weekday vs weekend listening patterns using donut and area charts; designed Top 5 rankings for Albums, Artists, and Tracks.
