PROFILE

Aspiring Data Analyst with hands-on experience in Power BI dashboard development, data visualization, and business intelligence reporting. Proficient in SQL, Python, Advanced Excel, and HTML/CSS. Demonstrated ability to transform raw data into actionable insights through real-world projects including retail analytics and music streaming data analysis. Quick learner with strong communication skills and a drive to grow in the data analytics field.

PROJECTS

Blinkit Sales Analytics Dashboard | Power BI

- Designed an end-to-end Power BI dashboard for Blinkit (India's Last Minute App) analyzing \$1.20M in total sales across 8,523 items.
- Visualized key KPIs — Total Sales, Average Rating (3.9), No. of Items, and Average Sales (\$141) using interactive card visuals.
- Built comparative analysis of fat content (Low Fat vs Regular) by outlet tier, and item type breakdown across 16 categories including Fruits, Snacks, Household, and Frozen foods.
- Developed outlet performance table with conditional formatting across Supermarket Type1, Grocery Stores, and Type2/3 — covering sales, item count, and item visibility.
- Incorporated outlet establishment trend line (2010–2022) and outlet size/location distribution charts using donut and stacked bar visuals.

Spotify Listening Behavior Dashboard | Power BI

- Built a multi-section Power BI dashboard analyzing 12,724 tracks, 3,835 artists, and 7,381 albums played over time using Spotify streaming data.
- Created platform-level slicers (Android, iOS, Mac, Web Player, Windows) and behavior filters (Is Shuffled, Is Skipped) for dynamic user-level analysis.
- Developed Year-over-Year comparison metrics: Tracks (3,508 vs PY: 3,916, -10.42%), Artists (1,058 vs PY: 1,400, -24.43%), Albums (1,802 vs PY: 2,258, -20.19%).
- Visualized weekday vs weekend listening patterns using donut charts and area charts spanning 2015–2024.
- Designed Top 5 rankings for Albums, Artists, and Tracks with horizontal bar charts; applied dark theme (#1A1A1A) with Spotify green branding for visual consistency.
